Yuval Mashiah

Petah Tikva | 053-626-7452 | myyuval555@gmail.com | 20 | [LinkedIn](#) | [GitHub](#)

A passionate, self-learning programmer with experience in Java and C languages, seeks a position in software and GUI design.

Professional Experience

Academic Projects

- A non-profit organization management system for volunteer and calls tracking, using WPF C# application.
- Queue management system to perfect businesses' customer service, using Windows Forms C# application.

Personal Projects

- Lobbies display for residential and public buildings with dynamic content and customizable integrations, using .NET C# application.
- Pet management mobile-app that simplify the family pet care tracking, using .NET C# application.

Product Assembly Assistant
[C-ATA](#) **| 2023-2024**
As part of my role at the product development company C-ATA, I assisted the project manager in the assembly of a product that identifies explosives. The product was sold to the IDF to assist fighters in the battlefield of Iron-Sword War.

Storekeeper
[Goldbooks](#) **| 2022**
As part of my work at the textbook store, I was responsible for distributing textbooks to schools, worked as a cashier, provided customer service, and packed books and equipment for orders.
